|------------------------|-------------|
| ITAA President's Award | David Baier |
|------------------------|-------------|

David Baier was awarded the first ITAA President's Award for his sharing the history of the United Bowmen Round and his United Bowmen Archery Club of Philadelphia. We are very pleased to join in this historic event with him today, and look forward to the growth of this tournament.

The ITAA team scores to be submitted by mail are the ten highest individuals in each category.

The Allowance Awards will be determined in the future. The allowance score will be determined by the average of an archer's three previous (most recent) Bowmen Round scores. The award will be presented to the archer who scores the highest over their average.

Club teams are determined by three members shooting the same bow style from a local club.
